

PRESS RELEASE

For Immediate Release:

Netcom Technologies, Inc. Announces Contract award with the Department of Justice / EOUSA

Netcom Technologies, Inc. (Netcom) announced today, April 21, 2014, that the Executive Office of United States Attorneys (EOUSA) awarded Netcom a 1 year with 4 one year options contract to provide network cable (both LAN and WLAN), infrastructure installation and relocation services to the 94 United States Attorney Office districts located in the US, Guam and Virgin Islands. As part of the services provided, Netcom will provide for the de-installation, moving and re-installation of an office's existing IT infrastructure, to include providing the new space with existing or additional wireless equipment and cabling as needed for the new or expansion space.

Vice President and Chief Sales Officer Mike Gammill had this to say about the award: "We are very proud to again be assisting the EOUSA with this critical infrastructure work. We have developed an excellent team of personnel and solutions that now include support for Wireless Network assessments and installations. This team will continue to insure that office moves for the EOUSA will be done smoothly, professionally, and on-time."

About Netcom:

For over 25 years, NETCOM Technologies, Inc., a privately held corporation, has consistently proven its ability to deliver "best value" inside and outside cable plant, IP video and security infrastructure, and telephony solutions to both public and private sectors. NETCOM has evolved from a regional cable plant installation provider into a nationwide provider of comprehensive and secure telecommunications infrastructure and security services.
