**PRESS RELEASE**  
**(July 2016)**

For Immediate Release:

**Netcom Technologies, Inc. Announces Metropolitan Washington Airport Authority (MWAA) Award**

Netcom Technologies, Inc. (Netcom), a leading infrastructure and physical security solutions provider announced today, July 1, 2016, that it has been awarded a 2 year BPA contract with The Metropolitan Washington Airport Authority (MWAA).

Roy Rea, the President and CEO of Netcom, stated “Netcom has been awarded a contract with MWAA in its continued support of Ronald Reagan National Airport as well as Dulles International Airport.”

Bill Lambros, an Account Executive at Netcom that developed this award added, “We have been supporting MWAA with its cabling infrastructure needs since 1998 through a contract with Verizon. Netcom has installed countless Cat. 6 workstation outlets, along with an extensive Single-mode and OM3 ISP/OSP fiber backbone throughout both airports. We also installed a new CATV headend at both airports and updated the Coax and fiber cabling infrastructure for both airports which provides TV services throughout. In 2015, we were awarded a BPA task contract directly with MWAA. We are proud to announce that through hard work providing MWAA high quality cabling services for our first year contract with MWAA, that we have been awarded a two year contract. We look forward to working with and providing MWAA with continued quality services in the future. These awards are a tribute to the efforts of the entire Netcom Team.”

**About Netcom:**

For the past 28 years, NETCOM Technologies, Inc., a privately held corporation, has consistently proven its ability to deliver “best value” inside and outside cable plant, IP video and security infrastructure, and telephony solutions to both public and private sectors. NETCOM has evolved from a regional cable plant installation provider into a nationwide provider of comprehensive and secure telecommunications infrastructure and security services.
