

PRESS RELEASE
(June 2016)

For Immediate Release:

**Netcom Technologies, Inc. Announces Washington Suburban Sanitary Commission
(WSSC) Award**

Netcom Technologies, Inc. (Netcom), a leading infrastructure and physical security solutions provider announced today, June 16, 2016 that it has been awarded a 1 year BPA contract with Washington Suburban Sanitary Commission (WSSC).

Roy Rea, the President and CEO of Netcom, stated “Netcom has been awarded a contract with WSSC in its continued support of its facilities throughout Maryland.”

Bill Lambros, an Account Executive at Netcom that developed this award added, “We have been supporting WSSC with its cabling infrastructure needs since 2007. Netcom has installed over 1200 Cat. 6 workstation outlets, along with an extensive OM3 fiber backbone with redundancy in the WSSC main headquarters building (RGH) as well as other facilities. During our 2015-2016 contract year we were proudly awarded a large amount of security work which we are continuing to perform under this new contract. We look forward to another year of working with WSSC to provide them with high quality telecom and security services.”

About Netcom:

For the past 28 years, NETCOM Technologies, Inc., a privately held corporation, has consistently proven its ability to deliver “best value” inside and outside cable plant, IP video and security infrastructure, and telephony solutions to both public and private sectors. NETCOM has evolved from a regional cable plant installation provider into a nationwide provider of comprehensive and secure telecommunications infrastructure and security services.
